

# Eric Lomeli-Gil

Monmouth, OR

## EDUCATION

### Post-Bacc Computer Science

Western Oregon University • Monmouth, OR

### Appl. Bachelors of Information Systems

Western Oregon University • Monmouth, OR

## WORK EXPERIENCE

### Technology Analyst 1

Chemeketa Community College • Chemeketa Community College • Dec 2023 - Present

- Troubleshoot and resolved issues with Mac, MacBook, and iPhone devices for labs and walk-in customers, ensuring high levels of user satisfaction.
- Managed Active Directory to locate and move computer objects between organizational units, maintaining an organized and efficient directory structure.
- Communicated possible solutions, scheduled meeting times, and documented troubleshooting steps in Jira, ensuring clear and effective communication.

### Technology Specialist

Chemeketa Community College • Chemeketa Community College • Aug 2022 - Dec 2023

- Troubleshoot classroom technological issues, including projectors, A/V control systems, PCs, and their peripherals, ensuring minimal disruption to classroom activities.
- Responded to and resolved on-call classroom issues, providing immediate solutions to technical challenges.

### IT Desktop Support

Samaritan Health Services • Samaritan Health Services • May 2021 - Apr 2022

- Provided Tier 1 technical support to over 5,000 users across five hospitals, ensuring prompt and effective resolution of technical issues.

## PROJECTS

### Movie Search Application using TMDB API • Nov 2024 - Present

Created a single-page application for movie searches with JavaScript for data exchange using ASP.NET MVC Web API and C#. Integrated TMDB API to fetch and process JSON data relating to user movie query. Implemented dynamic HTML modal displays for detailed movie information.

### Actor Search and Database Management System • Oct 2024 - Present

Developed a responsive application to search for actors and display their filmography using REST APIs, MSSQL, ASP.NET MVC Web App, and C. Designed a CRUD feature for actor management, implementing the Repository pattern for maintainability. Utilized LINQ for dynamic database queries and JavaScript for user interactions. Utilized Azure Data Studio to create MSSQL and populate data.

### Recipe Website • Apr 2024 - Present

Designed and implemented a multi-page responsive website for showcasing recipes, built with HTML, CSS, and Bootstrap. Incorporated a navigation bar, tables, ordered and unordered lists, and styled elements for a professional look. Developed

custom CSS rules and utilized Bootstrap 5 for responsive layouts, including single-column and multi-column formats. Created a user-friendly design featuring detailed recipes for breakfast, lunch, dinner, and snacks, each on dedicated pages.

## SKILLS

- ASP.NET MVC, Azure Data Studio, Bootstrap, C#, HTML, JavaScript, Jira, LINQ, MSSQL, Python, REST APIs, SQL
